

WE ARE
the Jones Foundation

WE ARE the Howard and Georgeanna Jones Foundation for Reproductive Medicine.

WE ARE the nation's preeminent medical

research foundation
in reproductive
medicine. **WE ARE**
dedicated to finding
a cure for infertility
by educating

physicians, scientific investigators and the
public. **WE ARE** working to ensure affordable
treatment is available to all who need it.

Drs. Howard W. Jones, Jr. and Georgeanna Segar Jones

“As had Dr. Howard’s and Dr. Georgeanna’s, my career in reproductive medicine has spanned the arc of human IVF treatment. Like many others who followed them, I was indebted to have had Dr. Howard as a mentor and even have him co-author a scientific paper – one of his last – on the importance of elective Single Embryo Transfer. We take very seriously the honor - and responsibility – we have in this field of science and medical treatment to carry on their legacy through the Jones Foundation”.

–Dr. Robert J. Stillman
Medical Director, Emeritus, SGF

In recognition of the decades of pioneering work in infertility therapy and research by Drs. Howard W. Jones, Jr., and Georgeanna Segar Jones, the physicians and staff of Shady Grove Fertility and US Fertility are honored to endorse and support the funding of research by the Howard and Georgeanna Jones Foundation for Reproductive Medicine.

WE ARE

dedicated to life-giving research and education.

We are counting on continuing support
from patients like you.

Our focus on infertility research.

The Jones Foundation for Reproductive Medicine is a non-profit tax deductible organization dedicated to advancing scientific and medical research in the field of reproductive medicine.

We are proud to be the nations' preeminent medical research foundation focused solely on reproductive medicine. As an independent organization the Foundation has awarded more than \$20 million in

grants to medical schools and universities across the country to improve concepts of in vitro fertilization research and educate physicians, legislators and administrators about public policy and ethics.

Consider the real impact you can make on families who hope for an answer, a treatment, a child of their own.

WE ARE

pioneers committed to finding solutions
for improving reproductive health by funding vital
research to help solve infertility challenges.

“Bringing Shady Grove Fertility into the Tidewater Area, the physician’s and the team maintain a special reverence for the work and legacy of the Jones’ and the important mission of the Jones Foundation. We look forward to being able to add to that legacy in the years ahead”.

—Anish Shah, M.D

Practice Director, SGF Jones Institute

A Proud History

In 1983, to carry on their pioneering work in IVF and reproductive medicine clinical care, Drs. Howard and Georgeanna Jones founded the Jones Institute. In parallel, to support scientific research in the field of reproductive medicine, they formed the now independent Howard and Georgeanna Jones Foundation for Reproductive Medicine.

“As Shady Grove Fertility and US Fertility have expanded across the country, we hear again and again from colleagues, physicians, and scientists, how one of the crown jewels, whose legacy we honor, is the affiliation and engagement with, and support for, the Jones Foundation.”

—Mark Segal

CEO SGF/US Fertility

Please join us as we move into the fourth decade in helping solve ongoing infertility challenges.
